

****NOTICE FROM REPUBLIC SERVICES****

With the impending State of Emergency regarding Hurricane Florence, we wanted to reach out to you and let you know Republic Services is planning accordingly to protect the safety of our employees, divisions and assets, so that once the hurricane is through our area we can react and respond accordingly. Ultimately, there are some situations we cannot control such as flooding, downed trees and power lines and loss of power that prevent access to some areas and may delay servicing customers who are in affected areas. We will do our best to communicate directly with customers and communities we serve to inform them of any delays or situations.

In preparation, we are asking that you help communicate with residents to limit injuries, property damage that can occur during events like Hurricane Florence. Please inform residents to secure trash and recycle containers in a garage or shed, if possible, to prevent them from being blown around due to high winds preventing loss or damage to containers or property they may impact.

Republic Services stands with our communities to prepare and assist during events, like Florence, that may impact daily life in our communities and react accordingly.

Thank you for your assistance, patience, and understanding. Stay safe.
